-Mails get discarded when sending a zip file. Be careful for the next time when sending deliverables

-Fix ivalid credentials for login frontend

-Flexible time slots and not fixed

Choose duration of an appointment

Split it in 15 min as suggestion by Elviro

Choose whats easier for you to choose: duration of start time + end time

-No alerts, proper message receive Elviro doesnt like it

-Visual view how each parts connects for the camera+sensor, can be in a diagram

Think about UX
